AGRI-INSURANCE COMPANY, LTD. ENTERS INTO CONTRACT
TO SELL 2500 ACRES NEAR FLORIDA GULF COAST UNIVERSITY

LaBelle, Fla. (May 17, 2001) Ben Hill Griffin III, chief executive officer and chairman of the board of Alico, Inc. (ALCO), announced today that Agri-Insurance Company, Ltd., a wholly owned subsidiary of Alico, Inc., has entered into a contract to sell approximately 2,500 acres of its Lee County property to Alanda Ltd. The contract price is \$29 million.

The property is located north of Florida Gulf Coast University on the north side of Alico Road east of I-75 and directly opposite the proposed Jacobs Mall site. It includes the acreage set aside for Florida Gulf Coast Park, a regional research, development & technology park. Alanda, Ltd. plans to develop this property as a high tech research and technology park, in conjunction with Florida Gulf Coast University.

"I am very enthusiastic to have the opportunity to develop such a uniquely situated property," said O.J. Buigas, president of Alanda, Ltd. "The property, situated between Florida Gulf Coast University and Southwest Florida International Airport, provides an excellent opportunity for airport commerce, hotels, office, warehouse and retail commercial development. It is the hole in the donut of development, the center point for commercial development between Lee and Collier counties, with the Alico interchange destined to become the primary interchange for the new airport facility."

O.J. Buigas has been an active developer of commercial real estate projects in Southwest Florida. Recent transactions include the purchase of

land at Colonial Boulevard and I-75 in Lee County with an anticipated development and gross sell-out in excess of \$14 million and the purchase of land at Collier Boulevard and Rattlesnake Hammock in Collier County, with an anticipated development and gross sell-out in excess of \$20 million.

"Today's announcement brings us one step closer to creating a thriving research, development and technology office park that will link FGCU's academic resources, Southwest Florida International Airport and the tenants of a high tech research and technology park," said Griffin. "Alanda, Ltd. is an ideal addition to the university community and we are confident that, with the leadership of O.J. Buigas, this project will enhance the university environment and provide significant economic and quality of life benefits for the entire region."

Alico, Inc. is an agribusiness company, primarily engaged in the production of citrus, cattle, sugarcane, sod and forest products.
