Alico, Inc. Announces Fourth Quarter and Annual Results Highlighted by \$48.1 million of Adjusted EBITDA and \$2.25 Adjusted Free Cash Flow per Diluted Common Share for Fiscal Year 2015

Performance Highlights

- The Company posted Adjusted EBITDA of \$5.5 million in the fourth quarter and \$48.1 million for fiscal year 2015.
- Adjusted Earnings per Diluted Common Share of (\$0.25) per share in the fourth quarter and \$1.84 per share for fiscal year 2015.
- Adjusted Free Cash Flow of \$6.6 million in the fourth quarter and \$18.1 million for fiscal year 2015, which is \$0.79 and \$2.25 per Diluted Common Share, respectively.
- The fiscal year 2015 pro forma citrus production increased 5% to 10.5 million boxes vs. an industry decline of 8%.
- The Company ended the year with net debt of \$198.5 million.

Fort Myers, FL, December 10, 2015 — Alico, Inc. (“Alico” or the “Company”) (NASDAQ:ALCO), a holding company with assets and related operations in agriculture and natural resources, today announced financial results for the fourth quarter and fiscal year 2015.

Clay G. Wilson, Alico’s Chief Executive Officer, said “The Company is pleased with the completion of a very successful year which included the acquisition and integration of Orange-Co and Silver Nip Citrus. When we announced our landmark acquisitions last year, we believed that they would establish us as the largest citrus producer in the US, and through a significant increase in EBITDA and free cash flow, Alico would be well-positioned for long-term growth. As a result of these acquisitions, Alico now holds over 46,000 gross acres of Florida citrus land. Our groves

are highly productive with fiscal year 2015 production of approximately 10.5 million boxes, an increase of 5% over the 10.0 million boxes sold in the prior season, on a pro forma basis, when the industry declined by 8% over the same period. We believe that our production continues to outpace the state, and we attribute this to the quality of our groves and superior horticultural practices. We remain vigilant about the risks of citrus greening that have reduced Florida citrus production by almost 50% over the past decade, and we are continuing to invest in our groves. We are encouraged by the profitability of our fiscal 2016 sales of Early and Specialty varieties into the fresh fruit market and continue to explore ways to optimize our cost structure in this increasingly competitive citrus industry. Our fourth quarter results primarily reflect the completion of Silver Nip Citrus' Valencia citrus season and our Ranch and Conservation Division's sale of calves. We retained approximately 1,000 heifer calves that would have been typically sold in the fourth quarter in order to expand our breeding herd in a cost effective manner."

Fiscal Year 2015 Fourth Quarter Results

Our agriculture operations are seasonal in nature with the second and third quarters historically producing a majority of our annual revenue and the first and fourth quarters producing less revenue.

For the fourth quarter of fiscal year 2015, revenues were \$13.0 million as compared to \$14.5 million for the fourth quarter of fiscal year 2014, a decrease of \$1.5 million.

The impact of the recent Alico acquisition strategy is apparent in the Company's fourth quarter Citrus Division results. During this quarter, declining market prices were offset by significantly higher production. Citrus Division revenue was \$10.6 million for the fourth quarter of fiscal year 2015 compared to \$7.0 million in the same period of fiscal 2014. This increase of \$3.6 million was due primarily to the acquisition of the TRB Grove in fiscal year 2015. The Company sold approximately 628,000 boxes of oranges in the fourth quarter of fiscal year 2015 compared to approximately 413,000 boxes in the same period of fiscal year 2014. Total pound solids were 4.0 million in the fourth quarter of fiscal year 2015 compared to pound solids production of approximately 2.7 million in the fourth quarter of fiscal year 2014. The market price per pound solid for the Valencia variety in the fourth quarter of fiscal year 2015 was approximately \$2.49 compared to \$2.58 in the same period of fiscal year 2014, a decrease of (\$0.09) per pound solid or (3.4%).

The increase in Citrus Division revenue was offset by a decrease in Ranch and Conservation revenues of (\$2.4) million and (\$2.6) million in Improved Farmland. Two factors impacted the decrease in Ranch and Conservation revenues. In the past, we generally sold substantially all of our calves in the fourth quarter of our fiscal year. However, in the fourth quarter of fiscal year 2015, approximately 1,000 calves were held over for sale into fiscal year 2016. Additionally, approximately 1,000 heifer calves that would have typically been sold were instead retained to expand our breeding herd. Improved Farmland revenues decreased due to the sale of our sugarcane operations.

Total operating expenses for the fourth quarter of fiscal year 2015 were \$10.0 million as compared to \$10.6 million for the fourth quarter of fiscal year 2014, a decrease of \$0.6 million.

Operating expenses increased by approximately \$2.0 million in the Citrus Division primarily due to the acquisition of Orange-Co and harvesting approximately 200,000 more boxes in the fourth quarter of fiscal year 2015 compared to the fourth quarter of fiscal year 2014. Improved Farmland operating expenses decreased by (\$2.0) million due to the sale of our sugarcane operations, and Ranch and Conservation operating expenses decreased by (\$1.1) million.

Net loss attributable to common stockholders for the fourth quarter of fiscal year 2015 was (\$2.5) million, or (\$0.30) per common diluted share, compared to net income of \$4.0 million, or \$0.54 per common diluted share in the fourth quarter of fiscal year 2014. Reported results include \$0.5 million of non-recurring expenses, net of taxes, for the quarter ended September 30, 2015.

Adjusted EBITDA (defined as net income excluding interest expense, income tax provision, depreciation and amortization and adjusted for non-recurring income and expense items) for the fourth quarter of fiscal year 2015 was \$5.5 million as compared to \$2.5 million for the fourth quarter of fiscal year 2014.

Adjusted Loss per Diluted Common Share (defined as net income excluding non-recurring income and expense items, net of related income taxes) was (\$0.25) for the fourth quarter of fiscal year 2015 as compared to (\$0.21) for the fourth quarter of fiscal year 2014.

Silver Nip Citrus

Silver Nip Citrus' fiscal year end is June 30. As a result, the Company's results of operations for the three months and year ended September 30, 2015 include the Silver Nip Citrus results of operations for the three months and year ended June 30, 2015, and the Company's financial condition as of September 30, 2015 includes the financial condition of Silver Nip Citrus as of June 30, 2015. The Company's results of operations for the three months and year ended September 30, 2014 include Silver Nip Citrus' results of operations from November 19, 2013 (the initial date of common control) through June 30, 2014.

Fiscal Year 2015 Annual Results

For the year ended September 30, 2015, total revenue was \$153.1 million compared to \$104.0 million for fiscal year 2014, an increase of \$49.1 million.

Citrus Division revenue was \$139.7 million in fiscal year 2015 compared to \$62.4 million in fiscal year 2014, an increase of \$77.3 million. The increase in revenue was due primarily to the Orange-Co and other citrus grove acquisitions during a year when market prices were significantly pressured.

The Company sold approximately 10.5 million boxes of oranges in fiscal year 2015 compared to approximately 4.4 million boxes in fiscal year 2014. Production increases were primarily due to the Orange-Co acquisition, and pro forma production was also up 5% year over year. The Citrus Division produced 62.2 million pound solids in fiscal year 2015 compared to 26.6 million pound solids in fiscal year 2014. The increase in production was offset by decreased market prices which averaged \$2.07 per pound solid for all varieties in fiscal year 2015 compared to \$2.24 per pound solid in fiscal year 2014, a decrease of (\$0.17) per pound solid or (7.6%). Agricultural Supply Chain Management revenue decreased by (\$5.9) million as we continue to reduce external boxes handled to focus on Company-owned fruit.

Improved Farmland, Ranch and Conservation Division revenues decreased by (\$19.5) million and (\$2.8) million, respectively, during the fiscal year. The decrease in Improved Farmland revenue was due to the sale of our sugarcane operations. Two factors impacted the decrease in Ranch and Conservation revenue. In the past, we sold substantially all of our calves in the fourth quarter of the fiscal year. However, in the fourth quarter of fiscal year 2015, approximately 1,000 calves were held over for sale into fiscal year 2016. Additionally, approximately 1,000 heifer calves that would have typically been sold were instead retained to expand our breeding herd.

Total operating expenses for fiscal year 2015 were \$117.2 million as compared to \$82.7 million for fiscal year 2014, an increase of \$34.4 million. Operating expenses increased by approximately \$61.5 million in the Citrus Division primarily due to the acquisition of Orange-Co, of which \$8.1 million was non-cash expense as a result of purchase accounting related adjustments from acquisitions. The valuation of fruit inventory acquired was marked to fair value to account for the stage of fruit development at the time of acquisition. The impact of the purchase accounting adjustments on operating expenses is non-recurring beyond fiscal year 2015. Citrus Division operating expenses, excluding the purchase accounting adjustments, were \$96.0 million or \$9.16 per box in fiscal year 2015 compared to \$42.6 million or \$9.77 per box in fiscal 2014.

Net income attributable to common stockholders for the year ended September 30, 2015 was \$15.8 million, or \$1.96 per diluted share, compared to \$9.0 million, or \$1.23 per diluted share, for fiscal year 2014. Reported results include \$0.9 million of non-recurring income, net of taxes, for the year ended September 30, 2015. Adjusted EBITDA for the year ended September 30, 2015 was \$48.1 million as compared to \$23.9 million in fiscal year 2014. Adjusted Earnings per Diluted Common Share was \$1.84 compared to \$0.85 for fiscal year 2014.

Balance Sheet and Liquidity

The Company ended the year with debt, net of cash and cash equivalents, of \$198.5 million.

The Company repurchased 71,554 shares of common stock at an average cost of \$41.61 per share in the fourth quarter of fiscal year 2015.

About Alico

Alico is a holding company with assets and related operations in agriculture and natural resources. In addition to its citrus operations, Alico is currently invested in cattle ranching, water management, mining and other natural resources. Our mission is to create value for shareholders by managing existing assets to their optimal current income and total returns, opportunistically acquiring new assets and producing high quality agricultural products while exercising responsible environmental stewardship. Forward-Looking Statements

This press release contains forward-looking statements within the meaning of Section 27A of the Securities Act of 1933, as amended, and Section 21E of the Securities Exchange Act of 1934, as amended. These forward-looking statements are based on Alico's current expectations about future events and can be identified by terms such as "plans," "expect," "may," "anticipate," "intend," "should be," "will be," "is likely to," "believes," and similar expressions referring to future periods.

Alico believes the expectations reflected in the forward-looking statements are reasonable but cannot guarantee future results, level of activity, performance or achievements. Actual results may differ materially from those expressed or implied in the forward-looking statements. Therefore, Alico cautions you against relying on any of these forward-looking statements. Factors which may cause future outcomes to differ materially from those foreseen in forward-looking statements include, but are not limited to: changes in laws, regulation and rules; weather conditions that affect production, transportation, storage, demand, import and export of fresh product and its by-products, increased pressure from disease, insects and other pests; disruption of water supplies or changes in water allocations; pricing and supply of raw materials and products; market responses to industry volume pressures; pricing and supply of energy; changes in interest rates; availability of financing for land development activities and other growth opportunities; onetime events; acquisitions and divestitures, including our ability to achieve the anticipated results of the Orange-Co acquisition and Silver Nip merger; seasonality; labor disruptions; inability to pay debt obligations; inability to engage in certain transactions due to restrictive covenants in debt instruments; government restrictions on land use; changes in agricultural land values; and market and pricing risks due to concentrated ownership of stock. Other risks and uncertainties include those that are described in Alico's SEC filings, which are available on the SEC's website at <http://www.sec.gov>. Alico undertakes no obligation to subsequently update or revise the forward-looking statements made in this press release, except as required by law.

Alico utilizes Adjusted EBITDA among other measures, to evaluate the performance of its business. Due to significant depreciable assets associated with the nature of our operations and, to a lesser extent, interest costs associated with our capital structure, management believes that Adjusted EBITDA, Adjusted Earnings per Diluted Common Share, Adjusted Free Cash Flow and Adjusted Free Cash Flow per Diluted Common Share are important measures to evaluate our results of operations between periods on a more comparable basis and to help investors analyze underlying trends in our business, evaluate the performance of our business both on an absolute basis and relative to our peers and the broader market, provides useful information to both management and investors by excluding certain items that may not be indicative of our core operating results and operational strength of our business and helps investors evaluate our ability to service our debt. Such measurements are not prepared in accordance with accounting principles generally accepted in the United States (“U.S. GAAP”) and should not be construed as an alternative to reported results determined in accordance with U.S. GAAP. The non-GAAP information provided is unique to Alico and may not be consistent with methodologies used by other companies. Adjusted Free Cash Flow is defined as cash provided by operations less capital expenditures adjusted for non-recurring transactions. The Company uses Adjusted Free Cash Flow and Adjusted Free Cash Flow per Diluted Common Share to evaluate its business and this measure is considered an important indicator of the Company's liquidity, including its ability to reduce net debt, make strategic investments, and pay dividends to common stockholders.
